Superintendent's Message

"In Partnership for Quality Education"

Dear Lakewood Families,

Welcome to the 2006-07 school year! I'm looking forward to the start of school and am anxious to greet students, staff, parents, and community members excited to take on the challenges of a new school year. Teams of teachers and principals have participated in training to improve their knowledge and skills, and custodial and maintenance staff have been working hard to prepare our schools for teaching and learning.

Each year brings new opportunities and challenges. By far, our greatest challenge is to continue helping our students achieve at ever higher levels. This is particularly important for our high school students who must pass the reading, writing, and math sections of the 10th grade WASL to be eligible for a high school diploma. Through our summer extended learning program and remediation opportunities that will be provided throughout the coming school year, our goal is to help each and every student maximize his or her potential. To that end, we have also had a team of teachers meeting over the summer to design more effective and focused extended learning opportunities for our struggling learners in the elementary and middle school grades. Intervention early and often for students who need additional time and support are key components of helping all students reach higher learning standards.

Student Achievement is our number one school district goal. Supporting this goal are our other district goal areas of **Climate and Culture**, **Technology**, **Facilities**, and **Fiscal Responsibility**. Within this issue of LakeViews is a summary of the progress we made over the last year related to each of these five goal areas. As a school district, we are proud of our accomplishments because we know that little by little each step forward helps us provide a better education to the students of this community. As we continue to struggle with lower enrollment, tightened budgets, and increased unfunded mandates from the state and federal governments, maintaining a strong educational program for all students will guide our plans and actions.

The students we educate today represent the future of our community and society. All of us —educators, parents, students, and community members —have a stake in creating a bright future for ourselves, our children, and our grandchildren. I hope that you take the opportunity this year to become involved in a meaningful way in the education of at least one child in our community. Working together, small efforts from large numbers will make a huge difference. Best wishes to a great 2006-07 school year!

Truly,

Larry

Lakewood School District Improvement Plan

"In Partnership for Quality Education"

Visionary Goals

Mission

Lakewood School District (LWSD), in partnership with students, staff, parents, and community provides a quality education in safe, positive, efficiently managed schools where students are empowered to become life-long learners and productive responsible citizens.

Fiscal Responsibility

LWSD exercises wise, responsible, and effective use of resources

Technology

Technology is integrated at all levels of the LWSD

Student Achievement

- All LWSD students meet or exceed standards
- Every LWSD student will graduate with the skills and knowledge to be successful adults
- LWSD staff are dedicated to powerful, intentional instructional strategies using research to continue to refine teaching and learning

Facilities

LWSD will provide modern, functional facilities that meet the needs of students, staff, and community

Climate and Culture

- LWSD is an inspiring place to teach, work, and learn
- Parents/guardians and community in partnership with LWSD will accept joint responsibility for all children's formal learning
- LWSD students are prepared to be successful in the next stages of their lives

Progress Highlights of District Improvement Plan

As a district we are committed to providing a quality education for all of our students. To accomplish our goal, we are focused on improving the learning of every student. We have established School Improvement Plans as well as a comprehensive District Improvement Plan. Highly trained staff is an important component providing the best possible education for our students and is reflected in the increased staff development opportunities that are available to our staff.

We are also committed to providing a positive environment in efficiently managed schools and doing so within the constraints of the funding provided to us. This can mean making tough decisions with student achievement at the core of our decision making process.

We have been working diligently to implement the District Improvement Plan and we would like to share with you some of our areas of progress in each goal area. A snapshot of the plan is listed on the bottom of page 2.

Student Achievement

- Strong improvements in MAP assessment scores
- Skills based remediation for high school students
- Increased number of students served through the alternative program at LHS
- Expansion of student learning plans
- Piloted new standards based elementary report card
- Carol White Pep Grant for Health and Fitness to enhance curriculum and instruction
- Effective practice research
- Extended Learning program

Climate and Culture

- Implemented LINK at LHS, a program that pairs upperclassmen with incoming Freshmen to help with their transition into high school
- K-12 School Improvement Team Learning Walks - an opportunity for teams of administrators and teachers to observe and learn about programs and instruction throughout the district
- Monthly Key Communicator messages
- Enhanced community partnerships with Lakewood Education Foundation, Sports Boosters, Navy and other parent groups
- District Information Night including 8th grade Parent Night and Kindergarten Registration
- Academic recognition and family nights
- Basmati - improved communication to secondary students' parents on student progress via the internet
- Enhanced transitions between buildings and grade levels
- Differentiated instruction training for teachers
- Staff visits and exchanges with other schools to view their successes
- Increased college prep classes

Technology

- High Tech Computer Lab added at Lakewood High School (LHS)
- Developed competency training program for staff development
- Technology training lab created for staff

Facilities

- Successful completion of capital projects

District Calendars

Lakewood School District's 32-page calendar/parent handbook will be mailed to all parents with students enrolled in the Lakewood School District. If you did not receive a calendar and would like one, you may pick one up at any school office, the district office, or give us a call and we will mail one to you.

Throughout the school year, please add important dates from the school newsletter to keep track of school events. We also have a web calendar on our website at www.lwsd.wednet.edu which lists most school events.

School Bus Ridership Week September 25 - 29

If your student normally rides the bus, please be sure they are on the bus during Ridership Week as it affects our transportation funding.

Thank you for your cooperation!

Child Find

Are you aware of any children or young people, ages 3-21, living in the Lakewood District area that may need special education assistance in order to be successful in school? Lakewood School District has a high quality special education department dedicated to serving students with handicapping conditions, including speech, physical, learning disabilities, and other handicapping conditions that might potentially place a student at-risk for not being successful in school. Please call Dr. Dennis Haddock at 360-652-4500 for further information.

**Early Childhood Education
& Assistance Program**

Lakewood School District is currently enrolling children for the Early Childhood Education and Assistance Program (ECEAP). Children who meet age requirements and income eligibility are enrolled on a first-come, first-serve basis. Space is limited to 28 children, with an AM and PM session. Children attend school four days per week; Monday through Thursday, with bus transportation provided one way. The program includes a developmentally appropriate learning environment for children, family support and health and nutrition information and resources. For further information or questions about enrollment please call Barb Noteboom at 360-654-2135.
